

Become a part of Central Pennsylvania's leading land development Civil Engineering firm. PennTerra Engineering, a well established, team oriented, employee owned firm has an opportunity for entry level and experienced designers for land development projects.

The position requires the ability to lay out and design residential and commercial land development projects including, but not limited to, lots, roads, parking areas, sanitary sewer and water systems, stormwater management facilities and soil erosion control measures utilizing AutoCAD Civil 3D.

Entry level applicants should have a B.S. in either Civil Engineering or Landscape Architecture. Applicants should be able to :

- Understand site grading
- Understand utility design
- Use AutoCAD Civil 3D.
- Work in a team environment
- Communicate effectively

Successful Applicants will join a team that:

- Values Employee's contributions
- Encourages continuing education
- Encourages advancement
- Works together to create successful projects

Benefits of Working at PennTerra include:

- Paid Vacation
- Employee owned firm
- 401K Plan
- Health Insurance
- Flexible work hours
- Yearly bonuses
- Education reimbursement
